### A.D.O.A. MISSION STATEMENT

We the members of the Arizona D.A.R.E. Officers Association are dedicated to the education of Drug Prevention Skills to the children in communities across Arizona. We believe that the D.A.R.E. Program provides the opportunity to place positive role models in the classroom and open lines of communications between children, parents, schools, the community and Law Enforcement. These relationships are the foundation to build trust, prevent crime, and promote a safe environment to enhance the quality of life within our communities. We believe that providing our members with the support and the highest quality training available will give them the tools to best serve the children of Arizona, our future.
